A Networks and embedded systems student, I have experience developing web and mobile applications through personal projects and internships. I am confident that my technical skills and strong work ethic will make me a valuable asset to any organisation. I look forward to using my skills and taking on new professional challenges.

EXPERIENCE

Internship, Information Systems and Software Engineering
Sonatrach | Baraki, Algiers, Algeria   02 / 2023 - 05 / 2023

Design and implementation of an oracle-based information system for the integrity management of Sonatrach pipelines. The objectives of this system are to:
- Manage and monitor the progress of the pipelines inspection program.
- Calculate the growth rate of pipe corrosion by identifying critical defects.

Summer internship, Mobile applications developement   07/ 2022 - 08/ 2022
HiveDigit | Mohammadia, Algiers, Algeria

Design and implementation of a system that monitors the performance of each website developed by the HiveDigit. The objectives of this system are to:
- Run tests manually and automatically to check each website's performance.
- Notify users whenever a breakdown is detected.

EDUCATION

Master of Science in Networks and Embedded Systems   2023- Present
University of Algiers - Benyoucef Benkhedda

Bachelor of Information Systems and Software Engineering   2020 - 2023
University of Algiers - Benyoucef Benkhedda
- *Average grade: 14.12 / 20*

Baccalaureate in Experimental Sciences   2017 - 2020
Mohamed Boudiaf High School, Dar El Beida, Algiers
- *Average grade: 14.82 / 20*
